THE

6 Per Ct. Gold Bonds

OF THE

TOPEKA, SALINA AND WESTERN R. R.

The syndicate of Boston and New York capitalists interested in the building of this road having paid in the full amount subscribed, the work will be pushed forward with all possible speed. The road runs from Topeka to Delhi, 181 miles, through the great wheat belt of Kansas, a territory without adequate railroad facilities, and where a large amount of business is waiting for direct communication with the markets of the South and East.

$150,000 in cash will be expended for equipment to be placed on the road during the construction of the line, and $400,000 in bonds and $500,000 in stock will remain in the treasury when the road is completed, and will be used for additional equipment and improvements.

For $850 00 and accrued interest from Jan. 1, 1883, five shares of stock, par value $100 each, and a $1,000 bond will be given, the latter bearing interest from Jan. 1, 1883. The price will be advanced from time to time as the building of the road progresses.

The proceeds from the sale of bonds will be deposited with Tower, Giddings & Co. of Boston, for account of Post, Martin & Co., New York, who are the fiscal agents for the syndicate.

Money to pay the interest on all sold bonds, up to and including July 1, 1884, will be deposited in trust in a national bank in Boston.

These bonds are worthy the attention of careful and prudent investors. Full information furnished on application to

What Is It

that makes a person so dull and sleepy in the spring of the year. It is owing to the reaction that takes place after a cold winter. It is a fact which all know that cold and frosty weather stimulates the appetite and digestion; consequently during the winter months most persons eat too much, and when spring sets in and warm weather comes, they feel dull and sleepy after eating, and debilitated. Now, this is owing to the fact that the secretions which are necessary for healthy digestion have become depraved and vitiated by over stimulation. Now, what is necessary is to restore the secretions at once. This should be accomplished by a medicine compounded of Roots and Herbs and not stimulated by alcoholic nostrums or by mineral medicines.

LYMAN'S DANDELION BITTERS

are a scientific combination of the medicinal properties of Roots and Barks, and if taken during the Spring or Summer months will prevent all diseases and keep one healthy and happy.

PERSONAL AND MISCELLANEOUS.

James Young, the celebrated English chemist, is dead.

Twenty new hotels are now building in the City of Mexico.

Some American artists are going to Norway for summer sketching.

There are three hundred women employed as journalists in the United States.

New York is to have a new Hebrew Orphan Asylum, which, with its grounds, will cost over $600,000.

A Pittsburg man, aged eighty, was sent to the poor-house the other day by two married daughters who are amply able to support him.

The comptroller of the currency has authorized the Clement National Bank of Rutland, Vt., to begin business with a capital of $100,000.

There is a falling off in the number of immigrants arriving this year. For the ten months ending April 30, the number of arrivals was 417,688, against 541,601 during the same time last year.

Anley McPhail, an old miser, was found dead in his bed at Brasher Falls, Vt., last week. His body had been partly eaten by rats. He had evidently been dead three days. He was partially insane, and for years had an idea that some one was trying to poison him.

Miss Jennie Corson went to Montana about a year ago and established a sheep ranch near Oka, at an expense of $10,000 cash. She has managed her business herself, and her sheep and ranch are said to be worth $7,600 more than they cost her. She is known as "the Montana shepherdess."

M. Damala, Sarah Bernhardt's husband, quickly distinguished himself in the army in Tunis, after quitting the stage. Three days after he arrived in camp the outposts were attacked by banditti. Damala saddled his horse, rushed headlong into the fray, and succeeded in bringing the bandit chief a prisoner into the French camp. Sarah is said to have telegraphed for his photograph as a souvenir.

A Chicago real estate firm has completed the purchase of an immense tract of land in Mississippi, it is supposed for German capitalists. The transaction includes 1,000,000 acres in the cotton belt, and 400 000 acres in the pine land section of the State. The price paid per acre was $1 35, the total consideration being $1,975,000. This immense purchase is only the first of four such tracts soon to pass into European hands.

Lowell parties recently purchased the remains of the old Buckman house in Centralville, and while removing the debris last week, made the unexpected discovery of several dies for the manufacture of 5 and 10 cent coins and also a number of the manufactured specimens, which were not perfect enough to warrant their circulation. The tools had evidently been through the fire, but were not materially injured. Some of the coins were dated 1881, which would indicate that the business had recently been carried on. The police are endeavoring to obtain some clew to the counterfeiters.

Mr. John W. Garrett has begun building a fine-art gallery and conservatory connected with his house in Baltimore. The gallery will be sixty by twenty-five feet in area, and the conservatory forty feet square. Mr. Garrett is said to have a large number of choice paintings by different artists of note, and a large collection of statuary now in their original cases in his dwelling. These have never been inspected since their arrival, and only a few have been unpacked. The art gallery and conservatory will be open to the public at proper times, free of charge. The entire work will be completed and the departments ready to receive visitors by the end of the year.

The oldest railroad conductor in the country, in point of active service is said to be William Coulter, who has charge of fast trains between New York and Philadelphia on the Pennsylvania Railroad. His first train belonged to the old New Jersey Transportation Company, and ran between Jersey City and Newark. That was in 1840; in 1847 his run was extended to New Brunswick, and in 1872 he was put in charge of through trains between New York and Philadelphia. Referring to his early service Mr. Coulter recently remarked: "Railroading in those days was not so comfortable a business for the conductors as it is now. We were compelled to assist in braking, help the baggage-master and not infrequently lead a fight against the roughs who insisted upon riding for nothing. In place of the splendidly upholstered saloon cars now in use, connected with the engine by a bell-rope, and with the patent steam-brakes, we ran compartment cars, after the English fashion of to-day, with the passengers facing each other. There were no cushions or any backs to the seats." The veteran conductor has travelled about 2,000,000 miles in the line of duty, and though he is nearly seventy years old, he looks as if he were good for many years more of service.

STATE NEWS.

Androscoggin.

A meeting of the members of the Androscoggin Bar was called for, Saturday afternoon, for the purpose of agitating a movement toward obtaining the establishment of a Superior Court in Androscoggin county. Only two of the counties—Cumberland and Kennebec—hold Superior Courts. It is a matter of great convenience, and Androscoggin county attorneys are of the opinion that the amount of business done in Androscoggin courts will warrant it.

Dr. Theodore D. Bradford, lately deceased, was born in Auburn, September, 1883, and graduated at Bowdoin College in the class of 1861. On leaving college he became principal of the High School, Cape Elizabeth, and later of the Park street grammar school for boys in this city, meanwhile pursuing medical study at Portland School for Medical Instruction. He graduated at the Medical School at Brunswick and the College of Physicians and Surgeons, New York, in 1865. He had been house physician of Bellevue Hospital, New York, demonstrator of Anatomy, lecturer on diseases of children, clinical instructor in surgery at the "City" and Hahnemann hospitals. He was a member of the County Medical Society and Medical Club of New York. In 1875 he married Matilda B. Leverich, who survives him with two daughters.

Aroostook.

The Augusta Journal says: Mr. Parker B. Burleigh and wife, who have been spending the winter in Augusta, took the train Monday afternoon for Aroostook county. Mr. Burleigh owns a 175 acre farm in Linneus, on which he will spend the summer. He also owns a large amount of land, amounting in all to over 36,000 acres, in other parts of the county. Among his possessions are half a township adjoining Houlton and another half township near Presque Isle. This land is some of the best in that section of the State. The sap season in Aroostook county has been a very poor one. The first three weeks of April, when usually the flow of sap is the largest, were almost a failure. The last week, however, was better.

Cumberland.

The two children of Mr. Fred R. Farrington met with a severe accident the other day on Pearl street, Portland. They were riding down the hill in a small cart; the little boy who had hold of the tongue of the cart lost control of it, the cart run off the sidewalk and the two children were thrown out, striking violently on their heads. The little boy's collar bone was broken and the little girl received a severe blow on the back of her head near the base of the brain, which made no scar, but started the blood from her ears.

A young man in the St. John boat was swindled out of $100 by the old game of a worthless check.

Through the watchfulness of Mr. Files, principal of the North school, Portland, several of the pupils of that school were convicted of maliciously breaking thirty panes of glass in the India street church.

At Portland, on Memorial day, it is expected that all the military companies will be in procession. There will be no exercises at the City Hall in the evening, as Rev. Mr. Tyrie, who was expected to deliver the oration, has been called out of the State into New Hampshire Conference and will be unable to fill his engagement. The afternoon exercises at Evergreen will include a short address by Mr. George M. Seiders.

The Press says: Saturday evening Mr. Wm. J. Dyer, of the firm of Norton, Chapman & Co., started with his wife, after the theatre, to ride home to Ferry Village. As he turned his horse's head on to the York street end of the bridge three young men, one of whom held a lantern, rushed out from the side of the road and one of them seizing the horse's bridle demanded Mr. Dyer's money or his life. Mr. Dyer had the whip in his hand and gave his animal a sharp cut. The horse sprung ahead with a jump and over went the man who had hold of the bridle. Almost immediately afterwards Mr. Dyer stopped his horse and looking back saw the three men disappearing up the hill. He says they were about nineteen or twenty years old, and probably expected he would accede to their demands.

Kennebec.

The Journal says: The Capital Guards are increasing in numbers. Last Wednesday evening there were five new enlistments and there will probably be several more next week. A strenuous effort is being made to revivify the company.

The oldest person living in Gardiner is Mr. Samuel Ames, who is now in the 91st year of his pilgrimage.

Rev. Dr. Pepper, of Colby, will deliver the address at the anniversary of the First Baptist Sunday school, Augusta, which occurs on the first Sunday in June.

The Journal says Mrs. Jerry Haley, of Augusta, dropped dead Monday.

Oxford.

The Franklin Journal says that Mr. Lyman Grealon, of Stark, was leading two unbroken colts; the colts took fright and ran. The halter caught around Mr. Grealon's arm and threw him down on his face and hauled him several rods on the hard street. He was taken up for dead, but is recovering.

The Democrat says Heman Bean's little son fell into the river at Norway. His father jumped in after him, and saved him, but narrowly escaped drowning in the attempt.

Somerset.

Sunday morning, Mr. Royal B. Wells drove up to Pishon's Ferry, and in jumping from the wagon, his horse became frightened and ran down the road to the ferry boat and running across the boat, jumped into the river and was drowned. The horse was valued at $175.

David Hurd, while at work on the frame of the pulp mill at Fairfield, fell fourteen feet striking on his shoulder, dislocating it, but breaking no bones.

Washington.

A number of sheep belonging to Mr. Bradford Varney, of Jonesboro, having been killed last week, Mr. V. mistrusted Bruin as the guilty party, and accordingly set two guns with a tempting bait, and last Tuesday morning a very large black bear was found shot through both eyes.

York.

The new Methodist church on Campmeeting Hill, Old Orchard, is well under way, and will when completed be an ornament to the commanding height on which it stands. It is to have a bell, an organ and tower clock, and is sufficiently large to accommodate the campmeetings in stormy weather. Rev. W. H. McAllister is the Methodist pastor for the current year.

A REMARKABLE FAMILY.

THE LIMBS OF THE OLD WASHBURN TREE OF MAINE.

Seventy-three years ago a man from Raynham went down into the district of Maine, which was then considered a forsaken country, and established himself in business at Richmond, as it is now called. That has since been a great place for shipbuilding, but this Raynham man built the first vessel there. He began to build another, but it was in the embargo times and the second vessel was allowed to rot on the stocks. Then he moved again—this time into one of the unsettled back towns, Livermore it is called, not far from where Lewiston has since grown up. He was a member of the Massachusetts Legislature before Maine became a State, ... but his crown of ... ...

suddenly one of the sons—ex-Gov. Israel Washburn, Jr., of Maine. Before we speak of him let us look at his family. First comes Israel, Jr., the subject of this article, who was Maine's representative in Congress from 1851 to 1860, and then "war Governor," as we say, in the first years of the rebellion. His brother Elihu B., member of Congress from Illinois for 18 years, Secretary of State and minister to France at the critical time when the Germans overrun her, comes next. Then Charles A., politician, presidential elector and minister to Paraguay. Next Cadwallader C., who was in Congress 12 years, was a major-general of volunteers during the rebellion, and also Governor of Wisconsin. Also William D., Congressman from Minnesota recently, and Samuel B., who served in the navy during the war, and A. S., who has confined himself to the banking business. Gov. C. C. of Wisconsin, when he died a year or two ago, left millions. W. D. of Minneapolis has millions. E. B. has been talked of as a presidential possibility. Three of these brothers were in Congress at the same time. Was it not a pretty good family.

Israel, who died so unexpectedly Saturday, was brought up in the town schools within a few miles of where Postmaster-General Howe, who died the other day was raised. He never went to college, but he read law and began its practice more than forty years ago. When he was thirty-seven years old he was chosen to Congress from the Bangor district which Charles Stetson, who died a few weeks ago, then represented, and Hannibal Hamlin had represented just before. He served till 1860, going over to the Republicans when that party was formed and the old Whig party broke up. In the Lincoln year, he was chosen Governor by nearly 16 000 majority, and re-elected in 1861 over the popular Gen. Jameson, and a peace Democrat by an increased majority. Worn out by his work he would not run again, and was given the Portland collectorship, which he held for more than a dozen years. Since he retired from that office, six years ago, he has devoted himself to business and literature.

Mr. Washburn was a typical New Englander. He valued and retained the respect of his fellow-citizens. He was enthusiastic in his political and religious relations. Many are the Universalist gatherings, conventions, Sunday school anniversaries, temperance meetings, and the like, at which the writer of this has heard him speak. He always spoke as if he believed every word he said. Earnest and honest, he believed other men were. He had faith in the people. Can anybody give a better reason for such wonderful success of a plain man's children? Israel Washburn was a man who came from the people, was one of the people (his great idol was that poet of the people, Robert Burns) who trusted the people, and served them to the best of his ability.—Boston Herald.

THURSDAY, MAY 17, 1883.

Ex-Representative Crapo, of Massachusetts, is rapidly recovering from the illness that recently threatened his life.

Senator Butler, of South Carolina, says the only thing that makes him doubtful of Democratic success in 1884 is that Conkling predicts it.

Four of Alabama's eight Representatives in Congress are regarded as certain to vote for Randall for Speaker. Carlisle counts on the other four.

Prince Bismarck's health no longer causes anxiety, but his physicians have advised him to take a complete and prolonged rest. He will go to Kissengen for the summer.

Democratic leaders in North Carolina are having trouble in keeping the young men in the party. Numbers of them are deserting to the Republican organization, which is united and vigorous.

The old feud between the county Democracy in New York city and Tammany has broken out afresh. The former supports the Governor in every respect. Meantime Tammany is putting on its war paint.

Second Auditor Ferris has decided that Gen Adam Badeau Grant's biographer, now Consul at Havana, is not on the roll of the army. This decision is based upon a law of Congress which declares in effect that a retired officer who accepts a civil position vacates his army position. Badeau had endeavored to draw pay as a retired officer and also his salary as Consul.

Ex-Senator Kernan, of New York, knows the difference between a tidal wave and a regular current. Being asked if the Democrats could hold anything near their majority of last year, be replied, "Oh, no! we can carry the state, possibly, but the majority of last year was the result of Cornell and anti-Cornell differences, a question which will not enter into future campaigns."

M. Jules Ferry, at the recent Vierzon banquet, said: "The two democratic ideals are labor and schools—that is the law of the future. It is by these that the great American democracy is daily taking gigantic strides towards the almost incalculable greatness of its destinies." M. Ferry was referring to the American Republic, however, and not to the party calling itself "Democracy."

An exchange says: The newspapers devote columns of space to a railway accident but scarcely a line a year is given to the millions of people who are carried safely over the iron highways. The eight railways terminating in Boston transported 41,120,265 passengers in 1882, of whom only eight were killed. The danger of being struck by lightning is actually greater than that of being injured in a railway accident. And every year some new device is invented by which the degree of safety is increased.

Roscoe Conkling says that the Democratic party is about to take control of the country. That settles it; for there is not a prominent man in the country who has less comprehension of the present state of public opinion on national politics. Indicate, self-conceit is the jug corked up with personal hatreds in which the ex-Senator has lived for the last two years. If he ever comes out, the advancement which the country has made in the meantime in political thought will be a startling revelation to him.—*Providence Press.*

The benefits of high wages, that is to say of protected labor, were recently illustrated, by a sharp contrast, in the statement of John Bright that in Glasgow over 40 000 families live in houses of one room. The subject of better homes for laborers is fortunately attracting considerable attention in England at the present time from both political parties. "I hold," said Lord Salisbury recently to the Conservatives of Birmingham, "that one of the most burning questions is the housing of the working class in our great cities." It is admitted in England that improvement must come chiefly from national or municipal assistance. It is certainly better from every point of view that a workman's wages should enable him to provide a decent home.

Tuesday's New York *Tribune* gives another exhaustive review of the condition of the winter wheat crop in the thirteen great wheat-raising States in this country. The *Tribune's* returns are several days later than those of the U. S. Department of Agriculture for May, but have the same general tenor of those reports, viz, that good weather in the Spring has done much to overcome the effects of unfavorable winter weather and the crop prospect is constantly improving. According to the agricultural bureau the condition of the crop advanced from the standard of eighty on April 1st, to 83½ on May 1st. This improvement has been continuously kept up, during the first half of the month of May. The *Tribune* estimates the total wheat crop of 1883, at 420,000,000 bushels, an amount amply sufficient to supply our home demand and ordinary export trade. In regard to oats and corn, the reports are almost uniformly favorable. The concurrence of recent crop reports from various reliable sources, in indicating this improvement is very gratifying.

A Washington special says: The statement as to the proposed immediate reorganization of the the Internal Revenue Service by the reduction of a number of Collectors is somewhat premature and the details published are inaccurate, but the report is substantially correct so far as Secretary Folger is considering such a plan. He has requested a draft to be prepared which should provide for a reduction of the number of Collectors of Internal Revenue from 126 to 92, on the basis best calculated to promote the efficiency of the service, and to make the consolidated districts continuous and accessible by lines of railroad. This is substantially in the line of the plan which was proposed in the last Congress, but which failed to be adopted. The bill presented in the House was to reduce the number of Collectors to eighty. The Commissioner of Internal Revenue at that time strongly opposed such a reduction, maintaining that it would cripple the service. Secretary Folger's plan will contemplate retaining twelve more Collectors than that which received considerable favor in the House.

THE FREE TRADE CONFERENCE.

[Boston Journal.]

The free traders have called a national conference at Detroit on the 31st instant. The purpose of the meeting is not fully stated, but it is fair to suppose that an effort will be made to present a platform upon which all those who are opposed to protection can stand for the present. The anti-protectionists in this State are made up of several distinct classes, which are so much at variance that their declaration of principles must be of the most general character. One extreme consists of the free trade element who would put all customs duties upon articles not produced in the United States. These men are doctrinaires and include Professor Sumner and Messrs. Shearman and Beecher of Brooklyn. Then there are the people who believe in a tariff for revenue only. They would retain the tax on whiskey and tobacco, and do not object to the incidental protection which manufacturers may derive from revenue duties levied upon articles which we do produce. In other words, they would not discriminate against the American manufacturer as do the disciples of Professor Sumner. Messrs. Wells and Moore are the best exponents of this element. The next class embraces those who agree with the New York *Herald* and the New York *Sun*—a new faction—who hold that all revenue should be derived from the tariff, which means the abolition of all internal taxation.

The last class is composed of those who would do away with the present protective tariff by a gradual reduction of duties year after year in order that no industrial interest shall be ruined by a sudden change of tariff policy. To this class belong a large number of Democratic politicians, who are desirous of getting the votes of the protectionists in their own party, and of all those outside who believe in any sort of free trade creed—the votes of all who belong to the first three classes named. There is another class of free traders who appeared in some force in the last Congress. It is made up of those who desire free trade in the products of every section except their own. These are the Ensign Stebbinses of the Free Trade party. They believe in free trade but are opposed to its practical application. What creed these different shades of anti-protectionists will agree upon remains to be seen. Perhaps the only declaration they can make is one to the effect that they are not protectionists and that they will support the Democratic candidate for the Presidency. Perhaps they will declare that they will no longer have faith in the Democracy as a free trade party should Mr. Randall be chosen Speaker of the next House.

It has been suggested that Detroit is not the most fortunate place for this conference, since across the strait from that prosperous city in Canada is the town of Windsor, having the same natural advantages as Detroit, but a mere village compared with the former. Detroit has grown under protection, while the free trade policy has stifled diversified industries in Windsor. Such a suggestion will have no effect upon theorists who exclude experience from any discussion of economic questions.

THE ALABAMA COURT OF CLAIMS.

A STATEMENT OF THE BUSINESS UNDER CONSIDERATION—SEVERAL IMPORTANT QUESTIONS AWAITING DECISION—THE CLAIMS OF BRITISH SUBJECTS WHO WERE NOT NATURALIZED.

[Special Dispatch to the Boston Journal.]

WASHINGTON, May 15. The following is a statement of the business before the Court of Alabama Claims: The court will be likely to devote its time until the summer adjournment to trying cases of the first class, vessels and cargoes. This is done in order, as nearly as possible, to determine the amount of money that will be awarded in this class. A very large proportion of the first class claims is owned in New England, especially in Maine. The cases of several vessels have been argued and submitted within the last ten days, and are now awaiting judgement. The important question whether the tug Boston is a Confederate cruiser, within the meaning of the law, has been argued and submitted. Upon the decision in this case depend in the aggregate about three hundred cases.

The question of allowing claims of British subjects who were not naturalized at the time of the loss is still under advisement and it is not expected that an opinion will be rendered for some time. This question has been considerably befogged and the idea has gained ground that it involves a large number of claims and a large amount of money, which is not correct. The cases of this kind are almost entirely those of Irish sailors who were in the American merchant service, but were not naturalized at the time of the loss, many of whom, after their return to United States from capture, enlisted in the army or navy, and in almost every instance have been naturalized, and have for many years been law abiding citizens. The number of cases and the amount claimed by Englishmen who have never resided in this country, and who have never been naturalized, is not large.

The Court announced a decision this morning which allows amendments to be filed which increase the amount of a claim. This was done on the ground that this was the method adopted at the former session of the court. In the case of the New York Gaslight Company's claim for a cargo of coal imported from Cape Breton, the Court announced a judgement which allowed a premium upon the coal at the currency value at the time of the payment of the invoice. This was an important test case. The decision has lately been rendered. This settles the allowance of the gold premium in all cases where currency was used to buy coin, but gold premium is disallowed in all other cases. A very careful estimate of the amount of claims of the first class show that without any interest they will not exceed three million dollars, although the nominal amount on the docket is very much larger. Undoubtedly there will be money enough to pay all claims of the first class in full, with possibly some interest. Among the claims of the first class are those of three insurance companies for some three millions of dollars, which the war premium claim agents do not think will be allowed. The court today heard the argument in the case of the vessel Glenaren of Thomaston, Me., of which a small part is owned in Boston. Mr. Hale of Portland made the argument.

PARTIES AND PLATFORMS.

[From the Troy Times, Rep.]

Whatever the platforms of parties may say, Republicanism and Democracy will divide upon the tariff question more sharply than in regard to anything else. The wildest imagination cannot conceive of a Republican declaration in favor of free trade, and he who should predict a manifestation of Democratic hostility to free trade might expect to be looked upon as a simpleton. A universal expectation is entertained that the Republican National Convention will speak out frankly in behalf of protection, and there is equal reason to believe that the Democratic National Convention will deprecate protection, though it may seek to avoid or evade the expression directly of a free trade purpose. The line of demarkation is already clearly drawn in the history of party action and in the popular mind as well. Protectionists instinctively look to the Republican party as the champion of their views. Free traders rest their hopes in a triumph of the Democratic party.

FIVE CENTS.

Less than five cents a day put aside during the 365 days of this year will buy for a young man of thirty a thousand dollars of Life Insurance. A little over thirty cents a day will provide the man of forty with five thousand dollars; and a dollar a day will yield him over fifteen thousand. Nine out of ten of the men whose eye this reaches, can spare enough during this year to take some new insurance.

We have but one question to ask: "Can the money be so wisely spent in any other way?"

HOSTETTER'S
CELEBRATED

STOMACH
BITTERS

There has never been an instance in which this sterling invigorant and anti-febrile medicine has failed to ward off the complaint, when taken duly as a protection against malaria. Hundreds of physicians have abandoned all the official specifics, and now prescribe this harmless vegetable tonic for chills and fever, as well as dyspepsia and nervous affections. Hostetter's Bitters is the specific you need.

For sale by all Druggists and Dealers generally.

What Is It

that makes a person so dull and sleepy in the Spring of the year. It is owing to the reaction that takes place after a cold winter. It is a fact which all know that cold and frosty weather stimulates the appetite and digestion; consequently during the Winter months most persons eat too much, and when Spring sets in and warm weather comes, they feel dull and sleepy after eating, and debilitated. Now, this is owing to the fact that the secretions which are necessary for healthy digestion have become depressed and vitiated by over stimulation. Now, what is necessary is to restore the secretions at once. This should be accomplished by a medicine composed of Roots and Barks and not stimulated by any alcoholic nostrums or by mineral medicines.

LYMAN'S DANDELION BITTERS

are a scientific combination of the medicinal properties of Roots and Barks, and if taken during the Spring or Summer months will prevent all diseases and keep you healthy and happy.

ARMY OF THE POTOMAC

REUNION AT WASHINGTON.

WASHINGTON, May 16. The day has proved most auspicious for the opening ceremonies of the reunion of the Army of the Potomac. The showers of yesterday laid the dust and to-day a fresh breeze from the northeast, with a cloudless sky and bright sunshine have made the day a perfect one.

At 11 o'clock the escort, under Gen. R. B. Ayers, of the U. S. Army, took their station along 15th street. The Society of the Army of the Potomac, under the command of Gen. A. A. Humphreys, President of the Society, and staff, formed in columns of fours, at the Riggs House, and at 11:20 o'clock the procession moved, breaking from the right to left and marching to Pennsylvania avenue, passing in review before the stand erected upon the pavement opposite the White House. Dense crowds of people lined the entire route of the procession.

Shortly before 12 o'clock the President was notified of the approach of the procession and with the members of his Cabinet and other invited guests proceeded across the lawn to the stand, which was approached by flight of steps from within the White House grounds. Upon the stand were the President, Secretaries Lincoln and Teller, Attorney General Brewster, Postmaster General Gresham, Justice Field, ex-Speaker Keifer, and many other distinguished persons.

The Head of the Procession

reached the stand at 12 10 o'clock and the last of the carriages which brought up the rear passed at 12 50 P. M. Of the Society of the Army of the Potomac there were about 700 men in line, together with various organizations composing escort, about 2 500 men passed in review. It was the first representative gathering of the Army of the Potomac in Washington since the war, and as the soldiers of twenty years ago marched past the stand, many of them gray haired and bearded, and bowed with the weight of intervening years, it recalled the review of 1865 when the Army of the Potomac marched up the avenue and passed in review before the President 100,000 strong. In the procession were many well known and familiar faces and there was a constant interchange of recognition between the passing veterans and those upon the stand. At one o'clock the escort was dismissed and the Society of the Army of the Potomac marched to the White House and paid their respects to the President who received them in the East room and greeted each member as he was presented to him.

At the Conclusion of the Reception

at the White House this afternoon representatives of the several corps which formerly made up the Army of the Potomac held business meetings for the election of officers for the ensuing year. The general meeting of the Society for the election of President resulted in the election of Gen John Newton, which was made unanimous The remaining officers were then re-elected. The committee on place for holding the next reunion then reported the names of three cities, viz., Brooklyn, Portland, Me., and Harrisburg. After some discussion Brooklyn was selected. The meeting then adjourned till 8 P. M.

During the afternoon the various corps held meetings and elected vice-presidents to represent them in the Society.

Union Army Paymasters.

About twenty-five ex army paymasters who served during the war, this afternoon organized the "Association of Union Army Paymasters," by electing the following officers:

Gen. B. W. Bryce, President.

Ex paymasters Hon. Will Cumback, Indiana, Gov. Fred'k Robie, Maine; Hon Wm S. Stryker, New Jersey; Hon. Russel Errett, Pennsylvania, and Stephen A. Walker, New York, Vice Presidents.

Thomas. H. Gardiner, Washington, Secretary.

Wm Penn Clark, Washington Corresponding Secretary.

George Truesdell, Washington, Secretary.

The Exercises

of the Society of the Army of the Potomac held in the evening at the National Theatre drew together an audience which filled the building in every part. Gen. Humphrey, retiring president, opened the exercises by introducing Judge Edwards, Commissioner of District of Columbia, who delivered an address of welcome. At the conclusion of Mr. Edwards' address the Marine Band rendered "Star Spangled Banner" and then the president introduced the poet Geo. Alfred Townsend who delivered a poem. Following the poem came the oration of the evening, Major Martin Maginnis, who delivered an eloquent oration.

There were loud calls for Gen. Sherman when Maginnis concluded, to which the veteran commander responded in a brief speech. Generals Webb, Slocum and Beaver and ex Speaker Keifer spoke briefly. Telegrams of regret at their inability to be present from Gen Hancock and Gen Sheridan were read and the exercises closed with "Dixie" and "Yankee Doodle" by the band.

The Fifth Army Corps.

of the Society of the Army of the Potomac had a largely attended meeting this afternoon at which a resolution was unanimously adopted extending the thanks of the Corps to the President of the Senate of the United States, General Grant, Senators Sewell and McPherson, of New Jersey, and other persons for their efforts to secure justice for Fitz-John Porter.

DASTARDLY ACT.

A Train Derailed and One Man Killed.

LANCASTER, Pa., May 16. An engine and eighteen freight cars were thrown from an embankment on the Reading & Columbia Railroad near Ephrata this afternoon. Geo. H Hain, master mechanic of the road, was killed. The accident was caused by a plank maliciously placed across the track.

MASSACHUSETTS.

Mill Damaged by Fire.

SPRINGFIELD, May 16. The picker department of the Germania mill at Holyoke was damaged several thousand dollars worth by fire this evening; fully insured.

THE INDIANS.

Rumors of a Proposed Attack.

OTTAWA, May 16. A rumor is in circulation here to the effect that the Cree Indians, at Fort Walsh, are assembling for the purpose of crossing the line to attack the Americans. These Indians previously crossed but were driven back by the United States forces. Officials from Fort Walsh, up to Friday last, represent the Crees as being perfectly quiet and no trouble apprehended.

KENTUCKY DEMOCRATS.

Unsuccessful Balloting for a Candidate for Governor.

LOUISVILLE, May 16. The Democratic State Convention met at noon to-day and elected Isaac Caldwell temporary chairman. Committees were then appointed and a recess taken. At the afternoon session the following gentlemen were placed in nomination for Governor: Thomas L. Jones, J. Procter Knott, Simon Buckner, Charles D. Jacobs and M. H. Owsley. Three unsuccessful ballots were taken and at midnight the convention refused to adjourn. Jacobs was withdrawn.

MARINE INTELLIGENCE.

Small-pox on Shipboard.

REVAL, May 16. The British bark Arabia, Capt. Robinson, from New Orleans March 2d, has arrived here. It is stated that twenty of the crew died of small-pox. The captain attempted to enter the harbor of Helsingor and was fined 800 crowns for violating the regulations of the port.

LABOR TROUBLES.

New Hands to Succeed Members of the Union.

PHILADELPHIA, May 16. Forty-five ship carpenters arrived here this evening from Portland, Maine, to work in the ship yards of this city and Camden. These men have been engaged by the shipbuilding interests to break the union which now exists here. The new comers have contracted to work for $2 per day for a term of six months. Fifty-five additional men will arrive in a few days to make the full complement. [illegible]

WHEELING, May 16. Specials to the Intelligence indicate that Snyder's majority over Brown, for Congress in the 3d District, will be about 1,500. a loss of over 2,000 Democratic votes. The returns are slow in coming in, only five counties having been heard from.

FOREIGN NEWS

MURDER TRIALS.

OTHER MATTERS OF INTEREST.

DUBLIN, May 16. The trial of Fitzharris, the cab driver, as an accessory after the fact of the murder of Cavendish and Burke, was concluded this morning. The jury returned a verdict of guilty against him and he was sentenced to penal servitude for life.

The grand jury found true bills for conspiracy to murder against Kingston, Gibney and Healy, charged with conspiracy to murder Poole, and a true bill for threatening to murder against Mathias Brady, charged with making threats against the life of the jury, which convicted his brother, Joe Brady.

Daniel Delaney charged with conspiracy to murder was arraigned in the court to day and pleaded guilty. Edward McCaffrey, who last week was arraigned on the same charge, withdrew his plea of not guilty and substituted a plea of guilty. His sentence was deferred. Kingston and Gibney were then arraigned on a charge of conspiracy to murder and both pleaded not guilty.

The Parnell Testimonial.

DUBLIN, May 16. A meeting was held here to-night in support of the Parnell testimonial. Thomas Sexton, M. P. for Sligo county was one of the speakers. He violently attacked the government, which he declared was the worst that ever ruled over Ireland. He said the Papal circular applied only to the clergy and not to the laity at all.

A Dynamite Bomb.

LISBON, May 16. During a popular fete and fireworks display in an adjacent village to-day a bomb filled with dynamite exploded killing four persons and wounding twenty.

FROM GREENVILLE. A correspondent writes from Greenville: A dam on a brook above Brassua Lake was carried away on Thursday of last week, hanging up a drive of 800,000 feet of lumber belonging to Lawrence Brothers, of Gardiner, and others. Ex-Senator Hamlin, Dr. Strickland, E. M. Hersey, C. B. Brown, Geo. Wheelwright, Conductor Whitney and others have just arrived.

THE DRIVES. The reports from the upriver regions are not encouraging to the lumbermen. A well known operator informs us that, within his remembrance there has never been a season when it looked so badly for getting the logs as now. Some of the drives are coming along all right but on most of the streams there is a great scarcity of water. Heavy rains would be welcomed greatly by the lumbermen.

BREWER FIRE DEPARTMENT. Since the recent fire in Brewer the Selectmen of the town have condemned their old hand fire engine which has been in use from time immemorial. The question which is now agitating the Brewer people is how to guard their property in case of fire. One of the propositions advanced is that of hiring one of the Bangor steamers to go to Brewer whenever an alarm is given. There is a warrant out for a town meeting in Brewer Town Hall on Wednesday next at 2 P. M., and action will then be taken [illegible]

A small bell has been secured temporarily for E. H. & H. Rollins' planing mill in Brewer and accordingly the suspension necessitated by the fire was only of brief duration. It is anticipated the large belt, ordered immediately after the blaze, will arrive the last of the week and the mill will then be run to its full capacity.

DEDICATION OF UNION HALL. Our Pittsfield correspondent writes: The dedicatory exercises in Union Hall began on Tuesday, but owing to the cold storm that prevailed during the day very few people were in attendance till evening, when there was a crowded house to listen to the presentation of "The Octoroon" by the Rialto Dramatic Company. The parts were well committed and acted. Excellent music was furnished by Andrews' Orchestra, of Bangor. Mr. Hall rendered a cornet solo in a tasty and skilful manner.

ROLLER SKATING RINK. During last evening there was a very large party at the Roller Skating Rink, and the floor was covered with skaters, a merry time being had by all present. In the future the manager will limit the number on the floor and thus a jam will be prevented. Music was furnished during the evening by a band in the gallery. This evening the G. A. R. Drum Corps will be present and play inspiring music. Large reflectors will also be used to illuminate the rink.

BODWELL WATER POWER COMPANY. Hon. A. D. Lockwood and Mr. Green, hydraulic engineers of eminence, accompanied Hon. J. R. Bodwell, yesterday, to Oldtown and Milford and inspected the property of the Bodwell Water Power Company, of which that gentleman is President. A very thorough examination was made and the party returned to this city during the afternoon, departing on the evening train west. The report of these experienced gentlemen is understood to be very favorable to the erection of cotton mills on the Oldtown side.

SUMMER HOTEL LEASED. Mr. Samuel White, of this city, has secured a lease of the Waukeag House at Sullivan for a term of years and the entire property has also been bonded to him. Mr. W. M. Thayer, the well known landlord, will assume the management of the house and will open it to the public early in June. The hotel is a large and commodious one, beautifully situated on Frenchman's Bay directly opposite Bar Harbor, and is a most delightful summer resort. Mr. Thayer's popularity as a landlord wherever he has been is a sufficient guarantee that the Waukeag will be a model hotel under his management.

ATTEMPTED SUICIDE. Advices from Hermon are to the effect that a young lady, Miss Myra Moore, attempted, on the afternoon of Tuesday last, to take her life. A razor was the instrument used and two ugly gashes were cut in her throat, from which blood came forth in a great quantity. Friends rushed to her relief and attempted to check the flow of blood. Medical aid was summoned and although the wounds were of a serious nature it was thought the lady may recover. Miss Moore is about 22 years of age, prepossessing in appearance, and a general favorite. She has for several years been a school teacher in Hermon and boarded at the residence of her uncle, Mr. Abraham Gerow, at which place the unsuccessful attempt at suicide was made. The terrible deed was a surprise to everyone. Her home is in the town of Dixmont.

HYMENEAL. A happy ceremony was performed yesterday forenoon at half past nine o'clock at the Middle street residence of Mr and Mrs. N. C. Downing, it being the marriage of their daughter, Miss Adela E. Downing, to Mr. Nathan F. Derby, of Concord, Mass. The nuptial bonds were tied in a felicitous manner by Rev. Henry L. Griffin, in the presence of the relatives of the contracting parties. Numerous and costly presents attest the high regard in which they are held. The bride is a most estimable young lady who has a host of friends in our city and the groom is an enterprising and successful merchant of Concord, Mass. The happy couple left on the Boston steamer for their new home, carrying with them the best wishes of their many friends. The parents of the bride will shortly remove from our city and also take up their residence in Concord.

STATE REFORM SCHOOL. At a recent meeting of the Governor and Council and Trustees of the Reform School it was decided to establish a mechanical department for the instruction of the boys restrained there. The last Legislature appropriated $4,000 for this purpose, and since the adjournment of that body members of the Executive Council have visited the reformatory institutions of Massachusetts, and in connection with the Trustees have prepared plans that they think can be carried out. The instruction contemplated will be simple in character, but designed to furnish a foundation for future usefulness in mechanical employments. At first nothing but wood work will be attempted, which will be expounded as the capacities of the boys are developed. There is sufficient unoccupied room in the present buildings for the purpose, and the contemplated changes will be at once entered upon. Heretofore the boys have been employed upon bottoming chairs alone.

FIRE ALARM TELEGRAPH.

Arrangements Perfected for the Introduction of the Gamewell System.

Mr. Rogers, representative of the Gamewell Fire Alarm Telegraph Company, was in the city yesterday and arrangements were during the day completed for the introduction of the Gamewell system of fire alarm in our city. Bangor has long been greatly in need of a method by which the location of a fire could be more quickly determined than at present and credit is due to all those who have at last been instrumental in bringing this about.

There will be two strikers, five boxes and one indicator, and the circuit will be in the neighborhood of about three miles of wire. One of the strikers will be on the bell of the First Parish Church, East Side, and the other, [illegible] the Hammond street [illegible] State and Forest Avenue, corner of Exchange and Hancock streets, corner of Centre and Somerset streets, corner of Union and Hammond streets, and Bangor House, at the corner of Union and Main streets. The indicator will be established at the steamers' house.

Mr. Rogers has returned to Boston, but will return when the required apparatus is manufactured and the line will be put up under his supervision. It is not probable the alarm will be in working order for two months yet.

THE LATE EX-GOV. WASHBURN.

Arrival of the Remains—Burial Services at Mount Hope To-day.

On the regular train last evening the remains of the late Hon. Israel Washburn, Jr, arrived in the city from Portland and were transported to the receiving tomb at Mount Hope Cemetery. The remains were escorted to the train from his late residence in Portland by the following pall bearers: Gen. S. J. Anderson, Gen. E. B. Jackson, Esq, Col. Fred N. Dow, ex-Gov. Sidney Perham, John N. Lord, Esq, Alfred Woodman, Esq, Hon. C. F. Libby and A F. Moulton, Esq.

On the train with the remains came the relatives of the deceased in a private car kindly furnished by President Geo. E. B. Jackson, of the Maine Central Railroad. The funeral party comprised Mrs. Washburn, his two daughters, Misses Ada and Maud Washburn; his son, Charles F. Washburn, of Minnesota; his brother Capt. Samuel Washburn, of the "Norlands"; Robert Washburn and Nathan Allen, nephews; Mr. and Mrs. Peter McIntire, of Boston, uncle and aunt of Mrs. W., Mrs Weston F Milliken, of Portland, niece, Hon. Geo. D. Bisbee and R. C. Bradford, Esq., Representatives of the Rumford Falls & Buckfield Railroad, of which the deceased was President.

The burial service will take place at Mt. Hope Cemetery at 10 30 A. M., to-day and will be participated in by the relatives of the deceased and citizens of Bangor and Orono. A special train will leave the Exchange street station at 9 30 o'clock for Mt Hope for the accommodation of those who desire to attend from this city. There will also be a special train bring a party from Orono. The services will consist of a prayer by Rev. Geo. W. Field, D. D., and remarks by Rev. Amory Battles.

The funeral party will return to Portland on a special train which will leave the Maine Central depot at one o'clock.

THE SHORE LINE.

Work Being Vigorously Prosecuted

A busy scene is now presented on Brastow hill in Brewer, where work is being prosecuted on the roadbed of the proposed Shore Line Railway. Operations began on Monday, but owing to the rain were suspended during Tuesday. Yesterday, however, work was resumed, and the face of nature in that vicinity is being quite rapidly transformed.

The projected route of the Shore Line leaves the Bucksport Branch of the Maine Central just below the Brewer depot, and it is in that vicinity that the work has been commenced. The first two miles of the line is under contract to the Mullan Brothers, of Oldtown, and W. C. Pitman, of this city. They are to do the cutting and filling, and, owing to the irregularities of the surface, have a very large amount of earth to move. They are now employing 22 men and ten horses.

About one-third of a mile from the point of starting, the road passes over a deep ravine, through which flows a brook from one of the brickyards, and a crew of men are now engaged in building a stone pier to support a bridge over this chasm. The work is under the charge of Mr. McDonald, of New Hampshire, who has a contract to do the stone work along the entire line. Mr McDonald already has crews at work at numerous points between Brewer and Ellsworth, and culverts and all necessary rock work will be completed as rapidly as possible.

The contract for the next six miles has been let to Mr. McCabe, of Norridgewock, and the Ward Brothers, of Kennebunk, have been within the past few days inspecting the line with the view of contracting for the next twenty miles.

W. C Pitman has the contract to supply the sleepers and they are now at stations along the E & N. A division of the Maine Central Railroad, ready to be brought down when desired. It is understood the rails are all purchased and will be laid as fast as the roadbed is completed.

G. A. R.

Division of the Department of Maine into Thirteen Districts.

The latest order from the Headquarters of the Maine G. A. NATIONAL ENCAMPMENT, G. A. R.

PREPARATIONS FOR THE GREAT GATHERING OF VETERANS AT DENVER, COLORADO.

The following Circular issued by the Commander of the Colorado Department, G. A. R., will be of interest to all members of the order:

HEADQ'R'S DEPT. COLORADO G. A. R.
DENVER, May 1st, 1883.

The Commander-in-Chief has fixed the following dates for the 17th Annual Session of National Encampment G. A. R.

Monday, July 23d—Meeting of National Council of Administration.

Monday, July 23, Wednesday, July 25th, Thursday, July 26th. Friday, July 27th—sessions of National Encampment.

The following general arrangements have been completed by the Department of Colorado G. A. R. and the citizens of the State.

An immense military camp will be established in the suburbs of Denver, to and from which railway lines will afford cheap and quick transportation. It will consist of one thousand tents capable of accommodating fifteen thousand comrades. This camp will be furnished with all the conveniences necessary for comfort, and will be ready for occupation on the 20th day of July. Comrades intending to quarter in the camp are requested to bring with them blankets only.

Comrades intending to quarter in camp will have their mail directed to Camp Van Der Voort, where it will be distributed each morning.

A charge of one dollar per day for subsistence will be made in camp which will afford a varied and tempting bill of fare.

Tuesday, July 24th, will be devoted entirely to parade of Grand Army and State troops, reception and all public exercises participated in by distinguished speakers of our country. At night there will be a parade of the celebrated Flambeaux Club, composed of comrades of A. Lincoln Post, No 1, of Topeka, Kansas, under the direction of comrade T. J. Anderson, Commander of Department of Kansas. This feature of the entertainment will be elaborate in its details, and one of the grandest displays ever witnessed in the United States.

During the session of National Encampment a system of cheap excursions will be run daily into the Canons of Clear Creek, South Platte, Royal Gorge of the Arkansas and the following cities of the Rocky Mountains and plains, viz. Georgetown, Leadville, Pueblo, Greeley, Idaho, Silver ton, Canon City, Fort Collins, Central, Durango, Colorado Springs, Longmont Golden, Gunnison, Manitou, Boulder.

These excursions will comprise in their scope the agricultural and mining regions of the State, as well as its far-famed natural scenery.

At close of the session of National Encampment the officers and delegates with their families will be taken throughout the State to the chief points of interest. Round trip rates of railway fare are to be announced to the different Departments from National Headquarters.

BURNETT'S COCOAINE.

A LADY'S HAIR SAVED BY ITS USE.

BURNETT'S COCOAINE will keep the hair in a strong and healthy condition *by stimulating the roots of the hair and restoring the natural action upon which its growth depends.* Twenty years ago a single bottle saved a lady's hair in a desperate case where every other treatment had failed; and since that early success thousands of cases of Baldness, Dandruff, Loss of Hair and Irritation of the Scalp have yielded to this remedy.

The [superiority] of BURNETT'S FLAVORING EXTRACTS consists in their perfect purity and great strength.

THE INVINCIBLE TRUTH: LET US STAND BY IT, AND IT ALONE.

Experience of Mr Isaac Milligan, of No. 157 South Main Street, Providence, R. I.

"About seven years ago," says Mr. Milligan, "I was sick a long time, and endured great suffering nearly all the long period of my illness. I called to my assistance the best medical adviser that I could obtain, and tried his prescriptions thoroughly without getting relieved from my sufferings. My life was getting very wearisome, and my sufferings increasing; especially the severe pains in my back had increased to such an extent that I could not stand up to work at my business, and the pains would dart from my back, through my bladder and the region of my groins, and were so intense and weakening that I felt that I could not live long in this condition. As I had become convinced that my sickness resulted from Kidney Disease, I decided to try Hunt's Remedy, and I had taken only about half a bottle before I began to improve, and was relieved of the dreadful backache and pains in the bladder and groins, and was soon able to stand up at my bench again and attend to my work as well as ever, and although this was nearly six years ago, I had no return of my trouble until, a few weeks ago, after getting up from an attack of fever, some of the old pains in my back came on, but I took Hunt's Remedy again, and it banished them at once, and I am now well and attending to my business. When I told my doctor that I had been cured by Hunt's Remedy, he replied that he had used it and knew it to be an excellent medicine. I have recommended Hunt's Remedy to my friends, and it has given entire satisfaction, and I cheerfully recommend it to all who have Kidney or Bladder trouble."

A LIFE IN DANGER

This is the fact concerning every man, woman and child who has in the body the seeds of kidney, bladder, liver, and urinary diseases, from which may spring Bright's disease of the kidneys. Such a prospect is simply terrible; and it is the duty of every one to be rid of the danger at once. To do this infallibly use Hunt's Remedy, the great kidney and liver medicine.

HERD-BOOK ADVANTAGES

In the discussions of the merits and demerits of the different breeds of cattle which constantly appear in the columns of the agricultural papers, the fact seems to be lost sight of by many, that each breed has been created and bred for a special purpose As in the horse family, we find the draught horse, the race horse, and the horse for all purposes, and we also find in cattle the butter cows, the cheese cows, the beef cows and the general-purpose cows. The adaptability of the breeds for different purposes and localities is very apparent. The Ayrshires and Holsteins, for cheese, as their milk is rich in caseine, and deficient in cream, therefore the milk from such cows will make more cheese. The Jerseys and Guernseys are recognized butter makers, their milk being very rich in cream, but deficient in caseine, the proportion of albuminoids to fat in their milk being very small, while that of the Ayrshire is just the reverse, showing that the latter s milk is much more nutritious as an article of food For the production of beef the Short Horn takes the lead and for this purpose is profitable

Those who make a specialty of butter want butter cows, and it makes but little difference whether the carcass of a cow brings $50 or $20, if she excels the beef cows, or cheese cows, by two hundred pounds of butter a year, for it is not the dead weight that makes a cow profitable but the product of her living body

If it were not for the herd book it would be impossible to keep the different breeds pure from one generation to another, thereby improving them and holding the power of potency, for blood will tell, and pure blood alone is pre-potent

Generally, crossing one breed with another tends to reversion, and what has been gained by tedious years of breeding are lost and the researches and experiments of naturalists of the past and present prove this to be a fact, and the older the breed and the longer it is kept pure, the better are the chances of improving the breed It is a lamentable fact that many inferior animals are registered in every herd book and of all animals to be registered by the farmer that wishes to improve his stock, is the thoroughbred ill bred for they are dear at any price, and should be fatted for the shambles and we consider that one great reason why so many farmers are so opposed to thoroughbred stock is from the sale of ill bred thoroughbreds for breeding purposes J

MANHOOD.

KNOW THYSELF.

A Book for Every Man! Young, Middle-aged and Old!

The untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled *THE SCIENCE OF LIFE; or, Self-Preservation.* Exhausted Vitality, Nervous and Physical Debility, Premature Decline in Man, or Vitality Impaired by the Errors of Youth, or too close application to business, may be restored and manhood regained

28th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25, by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION, is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION, is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N B —YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

SOMETHING FOR EVERYBODY.

Read, Mark and Inwardly Digest.

ASHBURNHAM, MASS, Jan 14, 1880.

I have been very sick over two years, and was given up as past cure. I tried the most skillful physicians, but they did not reach the worst part. My lungs and heart would fill up every night and distress me very bad. I told my children I should never die in peace until I had tried Hop Bitters. I took two bottles They helped me very much indeed. I took two more, and am well There was a lot of sick folks here who saw how they cured me, and they used them and are cured, and feel as thankful as I do.

MRS. JULIA G CUSHING.

BATTLE CREEK, Mich, Jan 31, 1880

I have used seven bottles of Hop Bitters, which have cured me of a severe chronic difficulty of the kidneys, called Bright's disease by the doctors.

I write to inform you what great relief I got from taking your Hop Bitters I was suffering with neuralgia, dyspepsia, nervous debility, and womans troubles A few bottles have entirely cured me, and I am truly thankful for so good a medicine

MRS MATTIE COOPER

CEDAR BAYOU Texas, Oct 28, 1882.

I have been bitterly opposed to any medicine not prescribed by a physician of my choice My wife, fifty six years old, had come by degrees of disease to a slow sundown, and doctors failed to benefit her I got a bottle of Hop Bitters for her, which soon relieved her in many ways My kidneys were badly affected, and I took twenty doses and found much relief I sent to Galveston for more, but word came back, none in the market, so great is the demand, but I got some elsewhere. It has restored both of us to good health and we are duly grateful

NEW BLOOMFIELD, Miss, Jan 2, 1880

Gents—I have been suffering for the last five years with a severe itching all over I have used up four bottles of your Hop Bitters, and it has done me more good than all the doctors and medicines that they could use on or with me I am old and poor but feel to bless you for such a relief from your medicine and torment of the doctors I have had fifteen doctors at me One gave me seven ounces of solution of arsenic, another took four quarts of blood from me All they could tell was that it was skin sickness Now after these four bottles of your medicine I am well and my skin is well, clean and smooth as ever

HENRY KNOCHE

MILTON, DEL Feb 10 1880

RUBBER

BELTING.

Important to all who use Belting.

We have just patented a new article in Rubber Belting which is sold under the name of

GIANT BELTING.

This Belting is put with the usual plies of Duck and Rubber and before putting on the outside cover it is *stitched*; in seams one inch apart with cotton cord, which has a tensile strength of fifty pounds It is then *stretched* in the ordinary state, drawing the plies so close together with the strong cord with which it is stitched, material strength is added to the belt, and the stitches are so drawn in to the plastic rubber that they cannot wear off on the outside. The outside cover is then put on *seamless*, so that it is as open as is the care of Rubber Belting made in the ordinary way, and the plies being so firmly stitched as well as frictioned together the belt cannot separate as many belts made in the ordinary way will, after being used for some time, especially when run at great speed, or in wet places.

We particularly call the attention of all owners to this belt as being in the end the cheapest belt they can buy, while the first cost is only about ten per cent. more than belting made the ordinary way We believe it will wear more than double the length of time. For heavy main drives you will find it superior to anything made It is also superior for *Endless Belts*, as we make the splice in such a way that it *cannot separate*

Try our Giant Belt! We will warrant satisfaction

Vital Questions!!

Ask the most eminent physician

Of any school, what is the best thing in the world for quieting and allaying all irritation of the nerves and curing all forms of nervous complaints, giving natural, childlike, refreshing sleep always?

And they will tell you unhesitatingly

"Some form of Hops!"

CHAPTER I

Ask any or all of the most eminent physicians "What is the best and only remedy that can be relied on to cure all diseases of the kidneys and urinary organs, such as Bright s disease, diabetes, retention or inability to retain urine, and all the diseases and ailments peculiar to Women,"

"And they will tell you explicitly and emphatically, "Buchu."

Ask the same physicians

"What is the most reliable and surest cure for all liver diseases or dyspepsia, constipation, indigestion, biliousness, malarial fever, ague, &c.," and they will tell you

"Mandrake! or Dandelion!"

Hence, when these remedies are combined with others equally valuable

And compounded into Hop Bitters, such a wonderful and mysterious curative power is developed which is so varied in its operations that no disease or ill health can possibly exist or resist its power, and yet it is

Harmless for the most frail woman, weakest invalid or smallest child to use.

CHAPTER II

"Patients

"Almost dead or nearly dying"

For years, and given up by physicians of Bright's and other kidney diseases, liver complaints, severe coughs called consumption, have been cured.

Women gone nearly crazy!

From agony of neuralgia, nervousness, wakefulness and various diseases peculiar to women.

People drawn out of shape from excruciating pangs of Rheumatism, Inflammatory and chronic, or suffering from scrofula!

Erysipelas!

SCROFULA

and all scrofulous diseases, Sores Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils and Eruptions of the Skin, are the direct result of an impure state of the blood

To cure these diseases the blood must be purified and restored to a healthy and natural condition AYER S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence It frees the system from all foul humors enriches and strengthens the blood removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA of which I have now taken three bottles with the result that the sores are healed, and my general health greatly improved I feel very grateful for the good your medicine has done me Yours respectfully MRS ANN O'BRIAN,"

148 Sullivan St New York, June 24 1882

All persons interested are invited to call on Mrs O Brian also upon the Rev Z P Wilds of 78 East 54th Street, New York City who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla not only in the cure of this lady but in his own case and many others within his knowledge

The well known *writer on the Boston Herald* B W BALL of *Rochester N H* writes June 7 1882: "Having suffered severely for some years with Eczema and having failed to find relief from other remedies I have made use during the past three months of AYER S SARSAPARILLA which has effected a *complete cure* I consider it a magnificent remedy for all blood diseases

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs renews and strengthens the vital forces and speedily cures Rheumatism Neuralgia, Rheumatic Gout, Catarrh General Debility, and all diseases arising from an impoverished or corrupted condition of the blood and a weakened vitality

It is incomparably the cheapest blood medicine on account of its concentrated strength and great power over disease
